REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

Independent claims 1 and 10 have been found allowable over the prior art because the prior art fails to teach or suggest a test system for primary and secondary brakes in a vehicle, comprising the combination of:

a two position combination first valve having the connections as claimed including the outlet thereof coupled to the primary brakes of the vehicle;

a two position combination second valve having the connections as claimed including the outlet thereof coupled to the secondary brakes of the vehicle; and

a system selector switch assembly, as defined by the claim, responsive to a test signal/operator input.

Claims 2-9 have been found allowable due to their dependency on claim 1.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
